Bob and Jim – Attached are EPA's responses to the LWG's comment on EPA's revisions to FS Section 2. The LWG expressed concerns about the EPA's approach being consistent with the NCP and EPA guidance. The sole purpose EPA is making revisions to the draft FS is stated in EPA's December 18, 2012 letter which notified the LWG that the draft FS was not adequate for its intended purpose and was not approved by EPA. The report has many deficiencies and needs substantial revision in order to fully support EPA's evaluation of alternatives and provide an adequate basis for remedial decision making at the Portland Harbor Site. Both EPA Region 10 and Headquarters are working together to ensure that the FS is consistent with the NCP and EPA policy and guidance.

We look forward to discussing our responses with you this morning.

Kristine Koch
